Message from the Guest Editor

Dear Colleagues,

Intelligent environments (IE) refer to physical spaces in which IT and other pervasive computing technology are woven and used to achieve specific goals for the user, the environment, or both. IEs have the ultimate objective of enriching user experience, improving management, and increasing user awareness of that environment. This Special Issue is dedicated to the 16th International Conference Intelligent Environments on (IE2020) https://blogs.upm.es/ie2020/. Authors of outstanding papers related to "Intelligent Environments", including smart cities, IoT, wearables, WSN, etc., according to their topics, will be invited to submit extended versions of their work to the Special Issue for publication.
