## Intelligent Control and Testing Systems and Applications

Guest Editors:

### Dr. Ovidiu P. Stan

Faculty of Automation and  
Computer Science, Department  
of Automation, Technical  
University of Cluj-Napoca,  
Memorandumului 28, 400014  
Cluj-Napoca, Romania

### Dr. Sanislav Teodora

Department of Automation,  
Faculty of Automation and  
Computer Science, Technical  
University of Cluj-Napoca, 26-28  
G. Baritiu, 400027 Cluj-Napoca,  
Romania

### Dr. Dan Gota

Faculty of Automation and  
Computer Science, Department  
of Automation, Technical  
University of Cluj-Napoca,  
Memorandumului 28, 400014  
Cluj-Napoca, Romania

Deadline for manuscript  
submissions:

**closed (30 November 2022)**

### Message from the Guest Editors

This Special Issue will act as a forum for research in automation, quality, testing and robotics. It will discuss the current trends and future directions of control and testing technologies and their industrial and social applications in the private and the public sectors.

Topics of interest include:

- **Control systems:** fault-detection and isolation; fault models; control methods; real-time systems; decision-support systems; distributed systems; intelligent systems; and automotive systems.
- **Quality and Testing:** IoT and CPS dependability; automatic test generation; design for testability; built-in self-test/repair; reliability; software QA; system testing; machine learning and testing; quality of experiments; field trials and deployment; advanced metering infrastructure; wide-area monitoring; and testing, reliability and security of emerging technologies.
- **Robot control:** mobile robots; cooperative robots; parallel structures; machine vision; and sensor fusion.
- **Applications:** cyber-physical systems; industry 4.0 applications; software applications; network sensors; image processing; and eHealth; eLearning; eCitizen and smart cities.

# Special Issue

*sensors*

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
