closed (31 May 2020)

Message from the Guest Editors

Dear Colleagues,

Physical-world devices and cyber-world computers are being tightly integrated with each other through the Internet in order to realize high-quality and human-friendly systems, so-called cyber-physical Systems (CPS). Internet of Things (IoT) technology is one of the key enablers of CPS, and IoT is in turn realized by a variety of computing and networking technologies. This Special Issue is devoted to advanced computing and networking technologies to enable intelligent and efficient IoT and CPS.

This Special Issue will be an open call but also invites selected papers from the Second International Symposium on Advanced Technologies and Applications in the Internet of Things (ATAIT 2019).

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
