Aeroespacial, Escuela de  
Ingenierías Industrial e  
Informática, Universidad de  
León, 24071 León, Spain

Deadline for manuscript  
submissions:

**closed (30 April 2021)**

### Message from the Guest Editor

Dear Colleagues,

Mechatronics and Robotics are well-known technologies that have become very popular in educational contexts. This is mostly motivated because of two main reasons. On the one hand, it is necessary to teach students how to make use of tools and platforms that they will apply in their future work. This can increase their employability and provide them with the proper knowledge background to succeed in the industry.

On the other hand, the use of Robotics and Mechatronics to solve educational problems has been shown to be a very efficient approach, especially because students are not defining a traditional solution but one that they can prove in a physical context. This facilitates developing what is known as 21st-century skills, which is one of the main aims of STEM Education. In addition, this kind of solutions helps to foster engineering and other necessary disciplines in pre-university education.

Dr. Miguel Ángel Conde

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
