

## Multisensor Systems and Signal Processing in Analytical Chemistry

Guest Editors:

**Dr. Larisa Lvova**

Department of Chemical Sciences and Technology, University "Tor Vergata", Via della Ricerca Scientifica, 00133 Rome, Italy

**Dr. Małgorzata Jakubowska**

Faculty of Materials Science and Ceramics, Department of Analytical Chemistry, AGH University of Science and Technology, Kraków, Poland

**Dr. Andrey Bogomolov**

Samara State Technical University, Samara, Russia

Deadline for manuscript submissions:

**closed (31 December 2020)**

### Message from the Guest Editors

Over the years, the progress in chemical measuring systems has been based on advances in electronics; sensors, and, more recently, multisensor systems. Hence, an intelligent signal processing algorithm is often the central aspect of an optimized measuring procedure.

This Special Issue will include but is not limited to the following topics:

- Novel chemical sensors' and multisensor systems' development and application;
- Analytical signals sampling and quantization;
- Signal normalization and standardization, baseline correction;
- Detection of the important features of the signals;
- Separation of overlapping useful components;
- Compression of signals and images;
- Influence of the adequate and optimized signal processing for analytical parameters ;
- Chemometric approaches in multivariate signal processing;
- Software for signal processing.

New research and ideas for novel chemical sensors and multisensor systems development and application comprising signal processing details are strongly invited to be a part of this Special Issue.

Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
