Message from the Guest Editor

Dear Colleagues,

We are pleased to announce that the Physical Sensors Section is now compiling a collection of papers submitted exclusively by Editorial Board Members (EBMs) of our section.

The purpose of this Special Issue is to publish a set of papers that typify the very best insightful and influential original articles or review where our section's EBMs discuss key topics in the field. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collected into a printed edition book after the deadline and will be well promoted.

Taking this opportunately, we would also like to call on more excellent scholars to join the Physical Sensors Section so we can achieve more milestones together.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
