Message from the Guest Editor

Dear Colleagues,

In recent years, the home automation industry has evolved in tandem with the development of the information society. The development of artificial intelligence has favored the emergence of new paradigms, with beneficial effects on various sectors of automation, including home automation, which has become increasingly smart. This Special Issue aims to collect innovative contributions in the field of artificial intelligence applied to home automation, with the aim of encouraging the development of an increasingly intelligent, efficient, and energy-conscious home.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
