Sensors for Affective Computing and Sentiment Analysis

Guest Editors:

Prof. Dr. Antonio Fernández-Caballero
Instituto de Investigación en Informática de Albacete, Universidad de Castilla-La Mancha, 02071 Albacete, Spain

Dr. Arturo Martínez-Rodrigo
Universidad de Castilla-La Mancha, Cuenca, Spain

Deadline for manuscript submissions:
closed (31 January 2020)

Message from the Guest Editors

This Special Issue, Sensors for Affective Computing and Sentiment Analysis, is intended to be a venue for researchers that are interested in the development and/or use of physical sensors in those areas of expertise related to sentiment analysis, who want to initiate their studies or are currently working on this topic. Hence, manuscripts introducing new proposals based on physical sensors for the analysis of physiological measures, facial recognition, speech recognition, or natural language processing are welcome in this Special Issue of Sensors for Affective Computing and Sentiment Analysis.

- Sensors for affective computing
- Sensors for sentiment analysis
- Sensors for ubiquitous and pervasive computing
- Sensors for ambient intelligence
- Sensors for ambient assisted living
- Sensors for physiological computing
- Internet of things sensors
- Sensors for natural language processing
- Brain--computer interfaces
- Biofeedback and neurofeedback systems
- Wearable systems
- Applications and case studies

Special Issue

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.
Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
