Message from the Guest Editors

Dear Colleagues,

This Special Issue encourages authors, from academia and industry, to submit new research results about technological innovations and novel applications for positioning and navigation, with special interest to local and mixed global-local systems. The Special Issue topics include, but are not limited to:

- Sensor fusion
- Novel technologies
- New applications
- State-of-the-art devices
- Portable device-based
- Infrastructure-less approaches and Signals of Opportunity
- Indoor/Outdoor transition systems
- Challenges in design and deployment
- Evaluation
- Global-Local Positioning and Navigation Systems

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.
