Message from the Guest Editors

Dear Colleagues,

In the last decade, there have been huge advances in the wireless sensor networks field. The research community started with some theoretical proposals, and now we have sensor network deployments everywhere. Low-cost and low energy consumption hardware of small devices with high processing computation and large memory capacity have made this success possible. This Special Issue is focused on gathering the most interesting surveys of wireless sensor network deployments in any type of environment.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
