### Message from the Guest Editor

Dear Colleagues,

This Special Issue is intended to provide an up-to-date and comprehensive view on the state-of-the-art of sensor science and technology in Italy.

The covered topics will span from sensing devices and principles (including chemical, physical, biological, and optical sensors), to sensor technologies (including micro and nano fabrication, film and printed technologies), and from sensor systems (including sensor electronics, energy harvesting, sensor networks, and the Internet of Things), to applications in different scenarios (including industrial, automotive, environmental, food and agriculture, biomedical, and other fields).
