Message from the Guest Editors

To celebrate and highlight the achievements of women in the sensors research area, this Special Issue, entitled "Women in Sensors", will present the sensors-related work from leading women scientists. We also hope that this Special Issue will further encourage and promote the scientific contributions of women researchers in this field.

A "Women in Sensors Award" will be launched and granted to the best paper published in this Special Issue. Each award nominee will be assessed on her paper's originality, quality, and contribution to the field by the Evaluation Committee. The winner will receive a certificate, an award of 1000 CHF, and an opportunity to publish her next submission in *Sensors* free of charge.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
