## AI Applications in Smart Networks and Sensor Devices

Guest Editors:

**Prof. Dr. Jae-Hoon Kim**

1. Dept. of AI Convergence  
Network, Ajou University, Suwon,  
Korea

2. Dept. of Industrial Engineering,  
Ajou University, Suwon 16499,  
Korea

**Dr. Woon-Young Yeo**

Dept. of Information and  
Communications, Sejong  
University, Seoul 05006, Korea

**Dr. Ricardo Jardim Goncalves**

Faculty of Sciences and  
Technology, New University of  
Lisbon, UNINOVA, 2829-516  
Caparica, Portugal

### Message from the Guest Editors

Machine-generated data expansion is a global phenomenon in recent internet services. The proliferation of mobile communication and smart sensor devices has increased the utilization of machine-generated data significantly. According to Statista, there are about 30.9 billion interconnected devices in the world (until 2025). Their number is set to explode in the following years as internet consumption rises and new gadgets and machinery hit the market. With recent innovative network and chip technology, smart devices are becoming smarter with high computing power, bandwidth, and storage available on the devices. The data expansion and smart devices make the high availability of artificial intelligence on the massive networks. Edge networking for smart devices accelerates the usability of intelligent applications.

Deadline for manuscript  
submissions:

**closed (20 May 2023)**

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
