Message from the Guest Editors

Dear Colleagues,

This Special Issue will focus on the up-to-date results in semiconductor devices and sensors. Semiconductor-based general devices, fabricated using mature micro-fabrication techniques and novel nanotechnologies, are the major player in the commercial market. Aspects related to theoretical and experimental research in basic devices and sensors, physics modeling, novel devices and sensor structures, sensors fabrication, and sensor-integrated interface conditioning circuits will be covered. Potential authors are invited to submit original research articles and review papers on the following topics:

- Material research oriented to semiconductor devices and sensors
- Processes and fabrication technologies for semiconductor sensors
- Modelling, design, and simulation of integrated semiconductor devices and sensors
- CAD simulation models of semiconductor devices and sensors
- Advanced integration technologies
- Novel semiconductor devices, circuits, and sensors
- Wide bandgap materials and devices
- Integrated interfaces or signal conditioning circuitry for sensors

Deadline for manuscript submissions:
28 June 2019
Message from the Editorial Board

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Ei Compendex, Inspec (IET) and Scopus.

CiteScore 2017 (Scopus): 3.23; ranked 9/116 in 'Physics and Astronomy: Instrumentation' and 100/644 in 'Electrical and Electronic Engineering.'
