Deadline for manuscript  
submissions:  
**closed (30 August 2023)**

### Message from the Guest Editors

Dear Colleagues,

The proposed Special Issue will aim to address advancements in chemical sensors research field and to spread the most recent outcomes on gas and liquid detection and detection systems. At present, technology is pushing the market to face new challenges in terms of materials, sensitivity, long-term stability, and re-usability of chemical gas sensors and platforms. Researchers can present their most recent findings and discoveries to make the scientific community aware of the most updated technologies and performance related to chemical sensing.

Chemical measurement system reliability evaluation and industrial exploitation are welcome in this issue to try to link research areas with practical exploitation of results to allow for easy technology transfer. Testing protocols and sensor modeling are also hot topics which can allow a better knowledge of materials and fabrication processes, allowing a more confident use of new emerging technologies.

Prof. Dr. Marco Mugnaini

Prof. Dr. Ada Fort

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Dipartimento di Ingegneria  
Elettrica e dell'Informazione  
(Department of Electrical and  
Information Engineering),  
Politecnico di Bari, Via Edoardo  
Orabona n. 4, 70125 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
