Smart Cities: Sensors and IoT

Guest Editors:

Prof. Dr. Luis Hernández-Callejo

Prof. Dr. Sergio Nesmachnow

Dr. Jaime Lloret

Prof. Dr. Pedro Moreno-Bernal

Deadline for manuscript submissions:

closed (31 March 2024)

Message from the Guest Editors

Dear Colleagues,

Smart cities result from the urgent need to orient our lives towards sustainability. Therefore, these cities use infrastructure, innovation, and technology to improve the quality of life of their citizens. Citizens interact with smart city ecosystems using smartphones and mobile devices, sensor technology, as well as connected vehicles and homes. Pairing devices and data with a city's physical infrastructure and services can reduce costs and improve sustainability. With the help of IoT, communities can improve energy distribution, optimize garbage collection, decrease traffic congestion, and improve air quality. Secure wireless connectivity and IoT technology are turning traditional elements of urban life, such as street lighting, into next-generation smart lighting platforms with extended capabilities. This includes integrating solar power and connecting to a central cloud-based control system that connects to other ecosystem assets.

Sensors and IoT deployed in cities are the key building blocks for the development of these cities. These technologies will make it possible to achieve sustainable, comprehensive, innovative, and forward-looking cities.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria
Elettrica e dell'Informazione
(Department of Electrical and
Information Engineering),
Politecnico di Bari, Via Edoardo
Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Chemistry, Analytical*) / CiteScore - Q1 (Instrumentation)
