Prof. Dr. Maria Gabriella Xibilia
Dipartimento di Ingegneria, University of Messina, Contrada di Dio, S. Agata, 98166 Messina ME, Italy
mxibilia@unime.it

Deadline for manuscript submissions:
10 December 2019

Message from the Guest Editors

Dear Colleagues,

Contributes are invited on the following topics:

- Data-driven methods for Soft Sensor (SS) design;
- Deep belief networks for SS design;
- Autoencoders for SS design;
- Long- and short-term memory networks for SS design;
- Convolution neural networks for SS design;
- Ensemble methods;
- Model structure selection;
- Small and large dataset;
- Semisupervised learning;
- Model validation;
- Hyperparameters design;
- Learning methods;
- Computational complexity;
- Feature selection in SS design;
- Soft Sensors (SSs) for industrial applications;
- SSs for inferential control;
- SSs for monitoring and fault detection.

Message from the Editorial Board

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Ei Compendex, Inspec (IET) and Scopus.

CiteScore 2017 (Scopus): 3.23; ranked 9/116 in 'Physics and Astronomy: Instrumentation' and 100/644 in 'Electrical and Electronic Engineering.'
