Wearable IoT Applications

Guest Editors:

Prof. Dr. Wan-Young Chung

Department of Artificial
Intelligence Convergence,
Pukyong National University
(PKNU), Busan 48531, Republic of
Korea

Dr. Dhananjay Singh

ReSESNE Labs, Department of
Electronics Engineering, Hankuk
(Korea) University of Foreign
Studies (HUFS), Seoul 02450,
Republic of Korea

Deadline for manuscript
submissions:

closed (31 March 2022)

Message from the Guest Editors

Dear colleagues,

Internet of Things (IoT) technologies are now widely used in many areas to make people's lives more convenient. IoT wearable technology has been the focus of many studies on the Internet of Things and wearable sensors. These smart devices are classified according to their features. With these classifications, it is straightforward to research the field of wearable technology. Almost all of these studies report that all devices that will be used in the coming years will be smart devices. Experts developed projects that corroborate these findings.

Research on the Internet of Things aims to raise people's living standards according to usage areas. Many wearable devices and IoT systems have recently been developed with Internet of Things technologies. With wearable smart devices and applications designed with the Internet of Things, many processes in the following areas can be performed: wearable healthcare, wearable fitness applications, wearable IoT technology at the workplace, smart clothing, smart homes, and smart cities.

sensors

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and
Information Engineering,
Politecnico di Bari, Via Orabona
4, 70126 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
