Message from the Guest Editors

Dear Colleagues,

We are pleased to invite you to contribute to this Special Issue of *Sensors* entitled “Wearable Sensors in the Evaluation of Gait and Balance in Neurological Disorders”. The aim of this Special Issue is to collect the most up-to-date information about the objective evaluation of gait and balance impairment, by means of biosensors (IMUs, etc), in patients with various types of neurological disorders including Parkinson’s disease, dystonia, cerebellar ataxia, multiple sclerosis, stroke, and spasticity. We will accept full-length research articles and reviews focused on this research topic. We hope this initiative will encourage new ideas and produce unparalleled networking opportunities in the field.

Prof. Dr. Antonio Suppa
Prof. Dr. Fernanda Irrera
Prof. Dr. Joan Cabestany

Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
