### Message from the Guest Editors

Dear Colleagues,

The Internet of Things (IoT) allows billions of smart devices to be connected to the Internet. Such smart devices are sensors and actuators that have processing, memory, storage, and communication capabilities. Wireless communication plays a major role in IoT systems, since deploying several sensors through wired connection is tedious, and for some applications it is impossible to establish wired communication. Due to the advances in radio technologies and wireless communication protocols, it is possible to employ wireless links for data communication in IoT systems. This Special Issue focuses on various topics related to wireless communication, and some are listed in the keywords.

Deadline for manuscript submissions:

**closed (15 December 2020)**

*sensors*

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Vittorio M. N. Passaro**

Department of Electrical and  
Information Engineering,  
Politecnico di Bari, Via Orabona  
4, 70126 Bari, Italy

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

## Author Benefits

**Open Access** : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility**: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

**Journal Rank**: JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
