Message from the Guest Editors

Dear Colleagues,

Wireless body sensor networks (WBANs) are the special kinds of wireless sensor networks (WSNs) that help the people to support the healthcare services, like medical monitoring, home appliances controlling, medical healthcare related data access, communication in emergency conditions, etc. Continuous monitoring with the help of both wearable and implantable Internet of Things (IoT) enabled devices will help in early detection of emergency conditions as well as diseases in at high risk patients.

This Special Issue aims to collect high-quality research results on wireless sensor networks for biomedical and clinical assessment. Submissions related to the following topics, but not limited to the novel designs, analyses, simulations and testbed experiments of authentication, access control and intrusion detection protocols, security and privacy issues in WBANs, blockchain-based security solutions for biomedical wireless sensor networks, Quality of Service (QoS)-based management, and AI-based solutions in WBANs, are welcome. Survey articles and original research articles are equally welcome.

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access :— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Embase](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: [JCR - Q2 \(Instruments & Instrumentation\)](#) / [CiteScore - Q1 \(Instrumentation\)](#)
