# Special Issue EEG and fNIRS-Based Sensors

## Message from the Guest Editor

EEG and fNIRS-based sensors have been widely used in human-computer interfaces, medical diagnosis, and treatment in recent decades. They provide a noninvasive method to interact with the human brain and other tissues. This Special Issue, therefore, aims to compile original research and review articles on recent advances, technologies, solutions, applications, and new challenges in the field of EEG and fNIRS-based sensors and systems. We are pleased to invite you to submit papers to this Special Issue. Topics include, but are not limited to, the following:

- Novel electrodes or fNIRS probes;
- Novel signal processing methods with EEG and fNIRSbased Sensors;
- Hemodynamic monitoring and interpretation;
- Multimode signal recording/processing;
- Time-domain near-infrared spectroscopy (TD-NIRS);
- Frequency-domain near-infrared spectroscopy (FD-NIRS);
- EEG and/or fNIRS-based sensors in the braincomputer interface;
- EEG and/or fNIRS-based sensors in theranostics;
- Reliability analysis and design;
- Algorithm to identify EEG and/or fNIRS data.

## About the Journal

## Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological

developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

### Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

## **Author Benefits**

## **Open Access:**

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

## Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
