

Special Issue

Sensors for Health and Environment Monitoring

Message from the Guest Editors

As the healthcare industry has evolved, we have seen an ongoing surge in the potential use of sensors for precisely monitoring vital signs of the human body or the surrounding environment. Recently, the advances in materials synthesis, flexible electronics, artificial intelligence, and Big Data processing technologies have provided highly reliable, accurate, accessible, and user-friendly sensors to monitor body's health status and the security of the environment in real time. This Special Issue aims to formulate original research and review articles on recent advances, technologies, solutions, applications, and new challenges in the field of sensors for health and environment monitoring. Potential topics include but are not limited to:

- Advanced manufacturing technology;
- Device physics study or characterization methods/systems;
- Sensor integration or sensor systems;
- Algorithm for health or environmental studies

Guest Editors

Dr. Guodong Zhou

Department of Electronic Engineering, The Chinese University of Hong Kong, Shatin, Hong Kong

Dr. Qiang Zhu

Department of Physics, Yunnan University, Kunming 650504, China

Deadline for manuscript submissions

closed (10 March 2024)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
