

## Special Issue

# Sustainable Smart Cities: Leveraging AI-Driven IoT Systems and Sensors

### Message from the Guest Editors

The Special Issue welcomes studies addressing demographic challenges, such as population aging and urban-rural dynamics, within the smart city paradigm. By covering topics, such as smart grids, intelligent transportation systems, waste management, and citizen-centric solutions, it offers a platform to explore how sensors serve as the backbone of sustainable cities. Researchers, practitioners, and policymakers are encouraged to share practical frameworks, novel technologies, and case studies to inspire the next generation of urban innovation.

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
