

Special Issue

Reinforcement Learning and Intelligent Systems in Sensor Networks and Applications

Message from the Guest Editor

This Special Issue aims to explore the integration of advanced intelligent systems, specifically reinforcement learning (RL), into the realm of sensor technology. RL has demonstrated powerful potential for optimizing sensor behavior, enhancing adaptability, and enabling decision-making capabilities in dynamic environments.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief
