

Special Issue

Microwave and Millimeter-Wave Sensing and Imaging on Wearable, Vehicular, and Portable Platforms

Message from the Guest Editor

The start of the 21st century marked a remarkable advancement in high-frequency microelectronics and the advent of the microwave and millimeter-wave radar systems on chips. This has spurred exponential growth in the research and development of new applications in sensing and imaging, including vehicular guidance, non-destructive testing, biomedical diagnostics, monitoring, security, surveillance, non-destructive testing, and inspection. This Special Issue aims to highlight original research and informative reviews of the latest advances in the fields of radio-frequency (RF), microwave, and millimeter-wave sensing and imaging with a focus on emerging devices and systems amenable to portable, vehicular, and wearable deployment. For more details, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
