

Special Issue

AI and Big Data Analytics for Medical E-Diagnosis

Message from the Guest Editors

This Special Issue will explore the challenges and opportunities in AI and big data analytics for medical e-diagnosis, with a focus on the role of sensors in providing real-time data to improve diagnostic accuracy. We invite researchers worldwide to contribute their work, aiming to address current challenges and unlock the full potential of AI-enhanced e-diagnosis. The high-quality submissions we have received underscore a strong international interest in advancing this crucial area of healthcare. **Keywords**

- AI-driven medical diagnostics
- big data analytics in healthcare
- sensor-based e-diagnosis
- healthcare data integration
- real-time diagnostic systems

Guest Editors

Dr. Simon Fong
Prof. Dr. Sabah Mohammed
Prof. Dr. Victor Chang

Deadline for manuscript submissions

30 September 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
