Intelligent Sensing and Information Mining—Selected Papers from the 10th International Conference on Sensing Technology

Message from the Guest Editors

This Special Issue comprises selected papers from the proceedings of the [10th International Conference on Sensing Technology](#), held in Nanjing, China, 11–13 November 2016. In this 10th edition of the conference, researchers, scientists, engineers, and practitioners throughout the world were invited to submit papers and present their latest research findings, ideas, developments and applications in the area of sensing technology. Some of the papers, which provided innovative contribution, have been selected and extended for publication in this Special Issue. We hope the readers will find this Special Issue interesting and informative.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
