

Special Issue

Advanced Technologies in 5G/6G-Enabled IoT Environments and Beyond

Message from the Guest Editors

We are delighted to announce a new Special Issue, entitled "Advanced Technologies in 5G/6G Enabled IoT Environments and Beyond". The advent of 5G and the emerging development of 6G have opened up new possibilities in the field of the Internet of Things (IoT). This Special Issue aims to explore the cutting-edge technologies that leverage 5G/6G capabilities to revolutionize IoT environments and extend their impact beyond traditional boundaries. Additionally, this Special Issue is dedicated to exploring other environments related to IoT. Authors are encouraged to present their research findings, methodologies, experimental evaluations, real-world deployments, and comprehensive reviews of the state of the art. We welcome articles that provide valuable insights, address challenges, and propose innovative solutions to shape the future of 5G/6G-enabled IoT and its intersection with other revolutionary technologies. For more information, please visit: mdpi.com/si/176898

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
