Security Issues and Solutions for the Internet of Things

Message from the Guest Editors

The editors welcome submissions of high-quality research papers (not previously published in other journals) presenting innovative strategies with which to mitigate the impact of cyberattacks on wireless sensor networks, as well as review articles discussing recent advancements in the development of strategies to mitigate the impact of such cyberattacks.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
