

## Special Issue

# Sensors for Human Health Monitoring Based on Biomedical Signals: From New Perception to Intelligent Diagnosis

### Message from the Guest Editor

This Special Issue aims to explore innovative sensing technologies, methods, and approaches applied throughout the entire chain of human health and disease monitoring (including, but not limited to, physiological signal acquisition, pathological feature identification, disease risk warning, treatment response evaluation, and rehabilitation tracking). The core focus is on utilizing biomedical signals (such as electrophysiological, biochemical, mechanical, optical, acoustic, etc.) for non-invasive/minimally invasive, continuous, and dynamic monitoring, and exploring how advanced signal processing, data fusion, and artificial intelligence technologies can enhance the quality, interpretability, and ultimately the level of intelligent assistance in diagnosis of sensor data.

### Guest Editor

Prof. Dr. Zhong Ji

College of Bioengineering, Chongqing University, Chongqing 400044, China

### Deadline for manuscript submissions

10 September 2026

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
