Challenges, Opportunities, Innovations and Applications in Electronic Textiles: E-Textiles 2023

Message from the Guest Editors

E-Textiles 2023 is an annual conference that brings together researchers and developers from academia and industry interested in adding electronic and sensing functionality to textiles and their related products. The conference website is <https://e-textilesconference.com/authors-abstracts/>. Authors of selected high-quality papers that fit the scope of *Sensors* from the conference will be invited to submit extended versions of their original papers (50% extension of the contents of the conference paper). In addition to the E-Textiles 2023 papers, other independent submissions are also welcome. For detailed information, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.
