

Special Issue

Leveraging IoT Technologies for the Future Smart Agriculture

Message from the Guest Editors

In recent years, a digital transformation has influenced several aspects of our society, and has also positively impacted agriculture, which is integrating innovative technologies and solutions, evolving towards the digital agriculture (or Agriculture 4.0) paradigm. Considering this context, the Internet of Things (IoT) technologies represent one of the key and enabling aspects for ensuring connectivity and thus allowing on field continuous real-time monitoring through heterogeneous wireless or wired sensors networks. This Special Issue encourages authors, from academia and industry to submit new research exploring developments, advancements and novel insights into the state of the art, the challenges and the approaches in the development of IoT infrastructures for enabling new services in the field of smart agriculture with reference to vegetables and plants management.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
