Selected Papers from the 14th International Conference of the Asia-Pacific Federation for Information Technology in Agriculture (APFITA 2024)

Message from the Guest Editors

APFITA 2024 (the 14th International Conference of the Asia-Pacific Federation for Information Technology in Agriculture) will be held in Tsukuba, Japan, on November 6–8, 2024. The theme of the conference is "The Frontiers of Food Systems Originating from Sustainable Agricultural Production in a Data-Driven Society". Authors of papers on DX in agriculture and food systems (IoT, AI, blockchain, drones, agricultural machinery, precision agriculture, and digital marketing) who are presenting at the conference are invited to contribute to this Special Issue. APFITA 2024 aims to collect high-quality, original papers (including papers on ongoing research) on agriculture and food system-related DX.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
