Special Issue

Optical Instruments and Sensors and Their Applications

Message from the Guest Editors

Optical instruments have been used for practical measurements and analysis and have proven their enormous capabilities and potentials in scientific, engineering, and industrial applications. The parallel development of analog and digital circuits, cutting-edge imaging technology, fast digital computers, and dependable image processing algorithms all contribute to the success of optical instrumentation technology. Optical instruments have thus become automated and efficient, and it is now easy to visualize the measurement results with high accuracy. This Special Issue focuses on new developments in functional devices, fundamental optical instruments, and the numerous applications of optical instruments.

Guest Editors

Dr. Manoj Kumar

Laboratory of Applied Optics, Graduate School of System Informatics, Kobe University, 1-1 Rokkodaicho, Nada Ward, Kobe 657-0013, Hyogo, Japan

Dr. Ana Doblas

Department of Electrical and Computer Engineering, University of Massachusetts Dartmouth, New Bedford, MA 02747, USA

Dr. Fernando Mendoza Santoyo

Centro de Investigaciones en Optica, A.C., Leon, Mexico

Deadline for manuscript submissions

closed (31 October 2024)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
