

## Special Issue

# Industrial Sensor Enabled Smart Computing for Design, Control and Maintenance in Real Time Applications

### Message from the Guest Editors

Modern sensors are a vital component in industrial applications as they enable the reading and sensing of measurement properties that can predict failure, track levels, and enhance manufacturing efficiencies for monitoring, control, and predictive maintenance. This Special Issue will feature state-of-the-art research addressing the broad challenges involved in developing sensors for industrial, healthcare, and transportation applications and analyzing sensor data using big data methods. The topics covered include (but are not limited to):

- Sensors for the smart manufacturing
- Wearable sensors for smart healthcare
- Impact of sensors on manufacturing efficiency
- Deep learning for sensor data analysis
- Predictive maintenance using sensor data analysis
- Internet-of-Things-enabled decision making in industrial applications
- Artificial Intelligence
- Modern and upcoming sensor technologies
- Sensor-enabled smart vehicles
- Sensor-enabled intelligent transportation.

Please contact the or the Assistant Editor at (ava.jiang@mdpi.com) for any queries.

### Guest Editors

Dr. Sachin Kumar

Department of Computer Science, South Ural State University (National Research University), Chelyabinsk 454080, Russia

Dr. Prayag Tiwari

School of Information Technology, Halmstad University, Halmstad, Sweden

### Deadline for manuscript submissions

closed (30 April 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

---

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
