

Special Issue

2D/3D Printed Sensors and Electronics

Message from the Guest Editors

We are pleased to announce the Special Issue of *Sensors* entitled "2D/3D Printed Sensors and Electronics". In this Special Issue, we want to collect a number of contributions to explore novel materials, techniques, and applications related to 2D/3D printed electronics. A non-comprehensive list of possible topics includes synthesis and characterization of 0D to 3D printable materials for sensing and actuating applications, fabrication technologies for printed sensors and electronic devices, and innovative applications of 2D/3D printed electronics. We invite authors to submit original communications, articles, and reviews on sensing devices and systems where 2D/3D printing techniques are involved. We are looking forward to your contributions and fruitful discussions. .

Guest Editors

Prof. Dr. Francisco Molina-Lopez

Department of Materials Engineering, KU Leuven, 3001 Leuven, Belgium

Dr. Almudena Rivadeneyra

Pervasive Electronics Advanced Research Laboratory (PEARL), Department of Electronics and Computer Technology, Faculty of Sciences, University of Granada, 18071 Granada, Spain

Deadline for manuscript submissions

closed (16 August 2021)

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Chemistry, Analytical) / CiteScore - Q1 (Instrumentation)
