

Special Issue

Eurosenors 2023 Selected Papers

Message from the Guest Editors

This Special Issue comprises papers presented at the EUROSENSORS 2023 Conference, held on 10–13 September 2023 in Lecce, Italy. This is Europe's largest conference offering the opportunity for the presentation of updated results related to both theoretical and applied research in the field of sensors, actuators, micro- and nanosystems, as well as related materials and fabrication technologies. We are proud to announce our agreement with MDPI to publish a Special Issue on EUROSENSORS 2023 and cordially invite all contributors to publish a **full paper** of their EUROSENSORS 2023 contribution in this Special Issue. According to the publishing rules, the full paper should be based on your conference presentation and four-page extended abstracts and should be expanded to the **size of a research article (add about 50% new materials)**. Sensors will apply an APC discount for the selected paper from Eurosenors 2023, consequently, the final APC will be CHF 1800 for the accepted papers.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
