

## Special Issue

# Fault Diagnosis for Photovoltaic Systems Based on Sensors

### Message from the Guest Editor

This Special Issue will focus on PV fault detection and classification techniques based on sensors:

- Sensors and sensing strategies for fault detection and diagnosis of PV devices;
- Sensors and sensing strategies for PV system voltages, currents, energy, power, and other electrically relevant quantities;
- Sensors and sensing strategies for irradiance, temperature, and other weather-related quantities;
- IoT–PV sensors and applications;
- Smart PV sensors;
- PV sensor development and analysis;
- Advanced PV sensor characterization;
- Embedded implementation of sensors, preprocessing techniques, computational-oriented strategies, edge computing;
- Calibration, characterization, and testing procedures for PV-oriented sensors;
- Visual and thermal inspection fault diagnosis methods;
- Electrical-based fault diagnosis methods;
- Machine learning and soft-computing techniques for data processing, aggregation, filtering, and forecasting in PV systems and applications.

---

### Guest Editor

Prof. Dr. Eduardo Quiles

Instituto de Automática e Informática Industrial, Universitat Politècnica de València, 46022 Valencia, Spain

---

### Deadline for manuscript submissions

closed (31 January 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
