

Special Issue

Mobile Sensing for Smart Cities

Message from the Guest Editor

This Special Issue on "Mobile Sensing for Smart Cities" explores the latest advancements, applications, and challenges in mobile sensing for smart cities. We aim to foster interdisciplinary collaborations, drive innovative solutions, and contribute to the realization of sustainable, resilient, and citizen-centric urban environments. By bringing together diverse perspectives from multiple disciplines, including computer science, environmental science, urban planning, and public policy, this Special Issue aims to explore sensor fusion, energy-efficient sensing, privacy-preserving analytics, incentive mechanisms, and the integration of mobile sensing with emerging technologies. Keywords:

- mobile sensing
- crowdsensing
- participatory sensing
- smart cities
- urban sustainability
- environmental monitoring
- intelligent transportation
- data privacy
- sensor fusion
- edge computing

Guest Editor

Prof. Dr. Dian Tjondronegoro

Department of Business Strategy and Innovation Griffith Business School, Griffith University, Queensland, Australia

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
