

Special Issue

Applications of Deep Learning and Sensing Technologies in Healthcare Monitoring

Message from the Guest Editors

The objective of this Special Issue is to generate a comprehensive understanding of medical AI and biosensors in clinical applications. It will also highlight the latest industrial solutions to recent challenges for AI deployment in clinical settings. Authors are invited to submit outstanding and original unpublished research manuscripts focused on the latest findings in related fields. The topics of interest are limited to the following:

- Artificial intelligence for medical imaging;
- Explainable artificial intelligence in healthcare;
- Artificial intelligence for healthcare sensing and monitoring;
- Biosensors; Biosensing technique;
- Wearable devices;
- Artificial intelligence ethical study in medicine;
- Medical imaging understanding;
- Image segmentation, registration, and fusion;
- Computer-aided diagnosis;
- Integration of imaging with non-imaging biomarkers;
- Visualization in biomedical Imaging;
- Image-guided interventions and surgery.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
