# Antennas and Propagation for 5G and Beyond: From Ground to Space

### Message from the Guest Editor

Next-generation communication standards such as 5G, B5G and 6G are among the most important technologies for the future. Advanced antenna and RF front-end systems are key technologies to meet the demanding requirements for next-generation communications. This Special Issue includes a broad research topic on sub-6GHz/mmWave technology for 5G, sub-THz technology for 6G antenna technology, and satellite antenna/RF system.
