

# Special Issue

## Feature Papers in the Internet of Things Section 2025

### Message from the Guest Editors

We are pleased to announce that the section 'Internet of Things' is now compiling a collection of papers submitted by Editorial Board Members (EBMs) and outstanding scholars in the field. We welcome the submission of original papers and review articles that present theoretical and applicative advances, new experimental discoveries, and novel technological improvements regarding the Internet of Things. We expect these papers to be widely read and highly influential within the field. All papers in this Special Issue will be collated into a printed book after the deadline and be promoted. We would also like to take this opportunity to invite more excellent scholars to join the section 'Internet of Things' so that we can work together to develop this exciting field of research.

---

### Guest Editors

#### Dr. Raffaele Bruno

Institute for Informatics and Telematics (IIT), National Research Council of Italy (CNR), Via G. Moruzzi, 1, I-56124 Pisa, Italy

#### Dr. Petros S. Bithas

Associate Professor, Department of Digital Industry Technologies, National and Kapodistrian University of Athens, Thesi Skliro, 34400 Evia, Greece

---

### Deadline for manuscript submissions

closed (31 December 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.
