Intelligent Sensing Solutions Enhancing Smart Grid Technologies

Message from the Guest Editor

The transition towards smarter and more resilient energy systems has ushered in a new era of technological advancements in the field of smart grids, and this Special Issue, entitled “Intelligent Sensing Solutions Enhancing Smart Grid Technologies,” aims to explore the innovative sensing solutions that are pivotal to optimizing the performance, reliability, and sustainability of smart grid systems.

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief
