

Special Issue

Advanced Sensing Systems for Biological Monitoring

Message from the Guest Editors

This Special Issue aims to highlight recent innovations and breakthroughs in advanced sensing systems for biological monitoring and we invite contributions that explore the development, implementation, and application of these technologies in various biological and ecological domains. We invite high-quality contributions on topics including, but not limited to, the following:

- Smart and autonomous sensor networks for real-time biological monitoring;
- AI-driven image and signal processing techniques for biological data analysis;
- Remote and underwater sensing technologies for biodiversity assessment;
- UAVs and satellite-based sensing for ecological monitoring;
- Bio-inspired and bio-integrated sensors for environmental applications;
- IoT-enabled biological monitoring systems and data fusion techniques;
- Applications of machine learning in biological monitoring and species recognition;
- Innovations in wearable and implantable biosensors for wildlife and human health monitoring;
- Advanced data analytics and predictive modeling for biological system behavior;
- Case studies and field applications of biological monitoring technologies.

Guest Editors

Dr. Chunlei Xia

Yantai Institute of Coastal Zone Research, Chinese Academy of Sciences, Yantai 264003, China

Prof. Dr. Jungpil Shin

Pattern Processing Lab, School of Computer Science and Engineering, The University of Aizu, Aizu-Wakamatsu 965-8580, Fukushima, Japan

Deadline for manuscript submissions

31 March 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
