

Special Issue

Muscle Activity Sensing for Prosthesis Control and Human-Computer Interaction

Message from the Guest Editors

The recording of muscle contractions is typically based on the long-established method of electromyography (EMG), which has been significantly improved in recent years. In addition, there is growing research interest in alternative or complementary methods, such as mechanomyography (MMG), electrical impedance myography (EIM) and optical methods. This Special Issue will present the latest advances in both instrumentation and signal analysis. Scientists are, therefore, invited to present their new measurement approaches from the field of basic research, new signal processing algorithms or new fields of applications.

Guest Editors

Prof. Dr. Roman Kusche

Department of Computer Science, Hamburg University of Applied Sciences, 20099 Hamburg, Germany

Dr. Rim Barioul

Professorship for Measurements and Sensor Technology, Chemnitz University of Technology, Chemnitz, Germany

Deadline for manuscript submissions

31 October 2026

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
