

## Special Issue

# Architectures, Protocols and Algorithms of Sensor Networks —Second Edition

### Message from the Guest Editors

Following the success of the previous Special Issue “Architectures, Protocols and Algorithms of Sensor Networks”

([https://www.mdpi.com/journal/sensors/special\\_issues/architectures\\_protocols\\_algorithms\\_wsn](https://www.mdpi.com/journal/sensors/special_issues/architectures_protocols_algorithms_wsn)), we are pleased to announce the next in the series, entitled “Architectures, Protocols and Algorithms of Sensor Networks—Second Edition”. Sensor network technology provides new sources of information and opens perspectives for innovative applications in industry, smart cities, smart homes, healthcare, environmental monitoring, military, and other domains. The emerging sensor network applications require the development of new dedicated architectures, protocols, and algorithms that ensure reliable network operation for a long time, as well as cost-effective deployment, scalability, and seamless maintenance. Wireless sensor networks require efficient methods for power management. In various applications, the availability of accurate localization algorithms is also a prerequisite for success. Moreover, new solutions are necessary to ensure the usefulness and security of the information collected from sensor nodes.

---

### Guest Editors

Prof. Dr. Bartłomiej Płaczek

Institute of Computer Science, University of Silesia, 41-200 Sosnowiec, Poland

Dr. Marcin Bernas

Department of Computer Science and Automatics, University of Bielsko-Biala, 43-309 Bielsko-Biala, Poland

---

### Deadline for manuscript submissions

closed (20 December 2025)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

### Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro  
Department of Electrical and Information Engineering, Politecnico di Bari, Via Orabona 4, 70126 Bari, Italy

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
