

## Special Issue

# Enhancing the Adoption and Usage of Advanced Sensing Technologies in Industry 4.0

### Message from the Guest Editors

In the era of the 4th Industrial Revolution, Internet of Things (IoT) and advanced sensing technologies have been increasingly adopted and used in a wide range of socio-technical scenes, from smart factories to smart cities, healthcare, transportation, energy supply, agriculture, public surveillance and cultural heritage, to name a few. On one hand, these innovative IoT and sensing technologies lay the infrastructural foundation of digital transformation; on the other hand, they raise new challenges and issues related to their security, stability, accuracy and reliability.

### Guest Editors

Prof. Dr. Guochao Peng

School of Information Management, Sun Yat-sen University,  
Guangzhou 510006, China

Dr. Fei Xing

School of E-Commerce and Logistics, Suzhou Institute of Trade and Commerce, Suzhou 215009, China

### Deadline for manuscript submissions

closed (20 June 2024)

## About the Journal

### Message from the Editor-in-Chief

*Sensors* is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
