# **Special Issue**

# Remote Sensing Applications in Ecosystem Modeling and Landscape Dynamics

## Message from the Guest Editors

The intricate dynamics of ecosystems and landscapes are pivotal to our understanding of Earth systems. As the global population grows and human activities expand, accurate and timely environmental monitoring has never been more critical. Sensor and remote sensing technology has emerged as a powerful tool, offering unparalleled opportunities to observe, analyze. and model the complex interactions within ecosystems and across landscapes. This Special Issue, "Remote Sensing Applications in Ecosystem Modeling and Landscape Dynamics", aims to bring together cuttingedge research that leverages remote sensing data to advance our knowledge of ecosystem processes, landscape changes, and their implications for environmental management and conservation. We encourage submissions that not only present novel findings but also discuss the challenges and future directions in the field. This Special Issue seeks to foster a dialog among researchers, policymakers, and practitioners to harness the full potential of remote sensing in ecosystem and landscape studies.

## **About the Journal**

## Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

#### Editor-in-Chief

#### Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

## **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

#### Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
