

Special Issue

Feature Review Papers in the Sensor Networks' Section 2024–2025

Message from the Guest Editors

The Special Issue on “*Feature Review Papers in the ‘Sensor Networks’ Section 2024*” aims to curate a collection of in-depth review papers that provide comprehensive insights, analysis, and advancements in the field of sensor networks. This Special Issue welcomes submissions focusing on emerging trends, novel technologies, challenges, and future directions in sensor network research. Authors are encouraged to explore cutting-edge topics, innovative methodologies, and practical applications that contribute to the ongoing development and evolution of sensor network technologies. The goal of this Special Issue is to showcase a diverse range of high-quality review papers that offer valuable perspectives and contribute significantly to the sensor network domain.

Researchers, academics, and industry professionals are invited to submit their original contributions to this Special Issue, promising an enriching and informative compilation of feature review papers in the Sensor Networks Section for the year 2024. For detailed information, please visit [here](#).

About the Journal

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. Sensors organizes Special Issues devoted to specific sensing areas and applications each year.

Editor-in-Chief

Prof. Dr. Vittorio M. N. Passaro

Dipartimento di Ingegneria Elettrica e dell'Informazione (Department of Electrical and Information Engineering), Politecnico di Bari, Via Edoardo Orabona n. 4, 70125 Bari, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Ei Compendex, Inspec, Astrophysics Data System, and other databases.

Journal Rank:

JCR - Q2 (Instruments and Instrumentation) / CiteScore - Q1 (Instrumentation)
